

WATER TREATMENT DEVICE

1. MOST COST EFFECTIVE AND EFFICIENT
2. CLEAR CLEAN WATER FOR LESS THAN A FRACTION OF A CENT PER LITRE

IF YOU ARE AN ENGINEER, MAINTENANCE MANAGER, PARENT, A CITIZEN OF PLANET EARTH – TAKE NOTE!

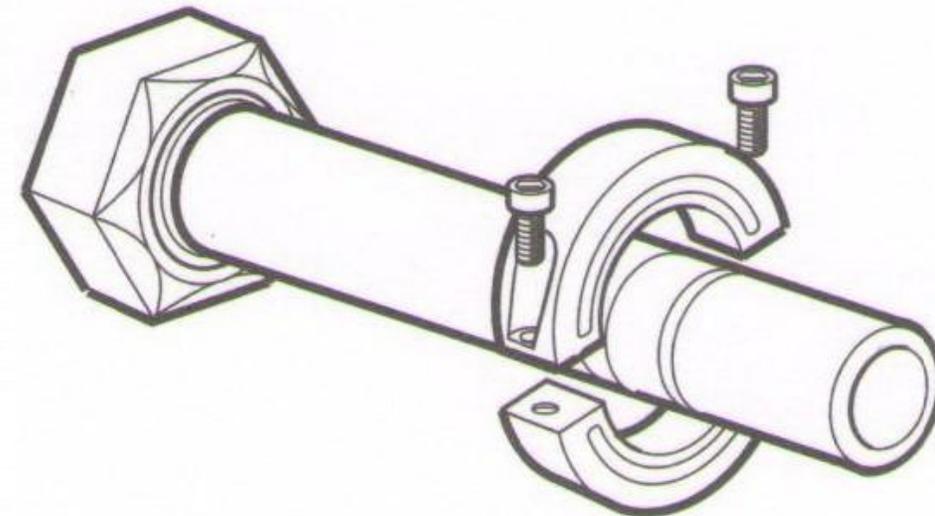

← SAVES TIME, EFFORT AND MONEY →

INSTALLATION IS SIMPLE AND QUICK.

- It is non-invasive – no cutting of pipes
- It fits around the external surface of a pipe
- Requires no power – can be placed anywhere
- Creates its own power source
- Is guaranteed for 5 years
- Produced to fit any size pipe
- Is manufactured to spec for specific applications

**EFFECTS LIMESCALE, BIO-FOULING,
METALS, TRACE ELEMENTS & BACTERIA
WITHOUT CHEMICALS**

THE MERUS INFLUENCE RENDERS ALL MATTER IN WATER TO A SOLUBLE STATE.
THE MOLECULES ARE DISTURBED SUFFICIENTLY TO DISARTICULATE, THEREBY
BECOMING INEFFECTIVE AND ARE THEN FLUSHED AWAY.

- Lime Scale is broken down and removed from the inner surface of pipes
- Biomass and Microbiological Bacteria no longer have an internal habitat
- The oscillations of the ring influence the water for long distances
- Metals and other contaminants are broken up and Oxidation is reversed
- The technology cures rust and reverses corrosion under water

TREATS RUST AND CORROSION OVER TIME
REVERSES OXIDATION AND THE FORMATION
OF REDOX

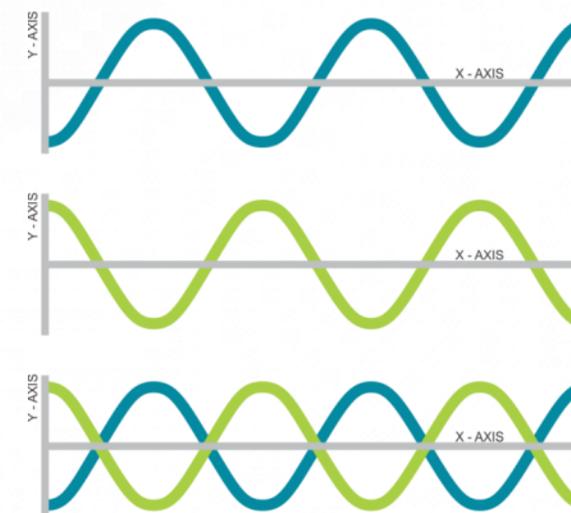

**ENERGIZES WATER -
ADDS 15 % MORE SOLUBLE OXYGEN**

THE WORKING PRINCIPLE OF THE MERUS SYSTEM

- All matter has a frequency
- The ring is programmed to emit an identical frequency to the matter, found in water, at an opposing amplitude
- If we overlay these frequencies the resulting frequency shows on the x-axis resulting in disturbance (effect of disturbance is disassociation)

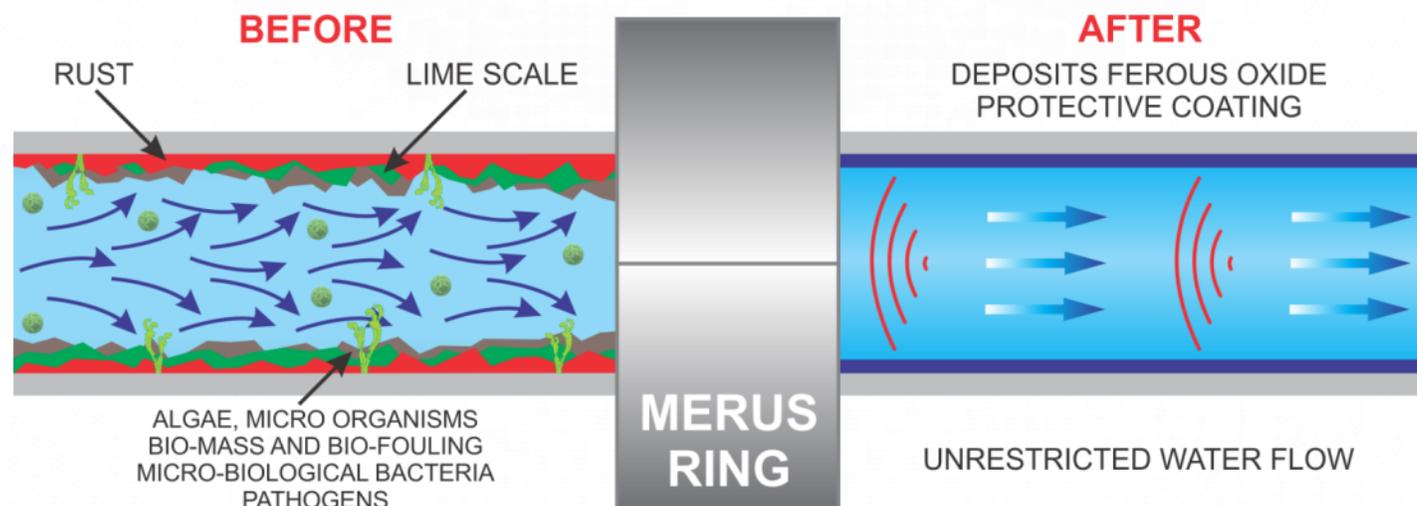

**PRESERVES GEYSERS, WASHING MACHINES,
EQUIPMENT, PIPES AND WATER SYSTEMS**

THE INTERNAL ACCUMULATION OF HARMFUL DEBRIS IN YOUR PIPES WHICH ACCUMULATES OVER THE YEARS IS BROKEN UP AND IS FLUSHED OUT WITHIN 3 - 6 MONTHS

NEEDS NO POWER, NO MAINTENANCE, NO SUPERVISION

RESTORES OUR PLANET – TOTALLY GREEN

DOMESTIC SITUATION

AVERAGE HOME

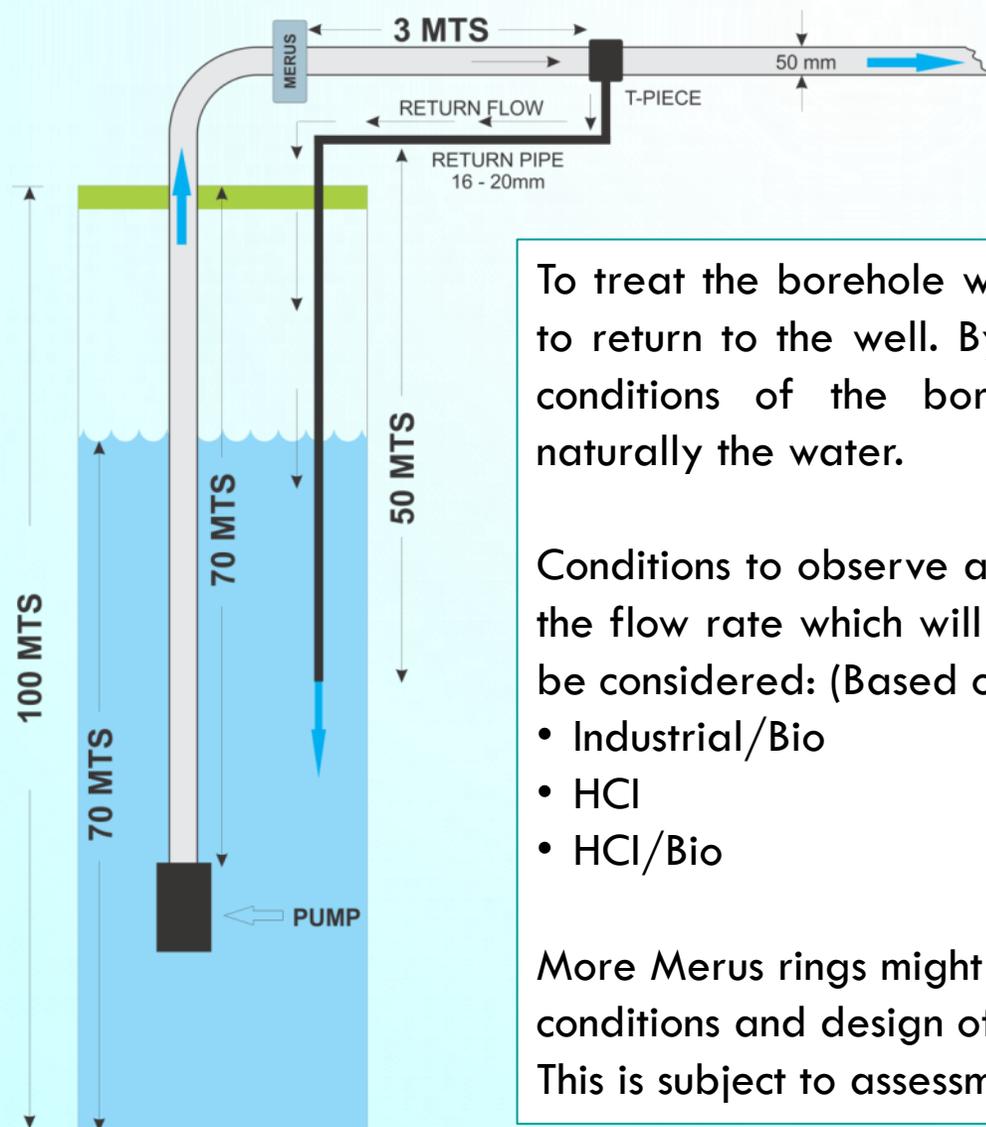

LIME SCALE COATS THE INNER WALLS OF YOUR PIPES EFFECTING YOUR:

- 1 **DISHWASHER** - becomes faulty because of lime scale
- 2 **WASHING MACHINE** - becomes faulty because of lime scale
- 3 **TOILET 1** - stained and difficult to clean
- 4 **GEYSER 1** - element replacements and internal rust
- 5 **SINK** - stained and difficult to clean
- 6 **GEYSER 2** - element replacements and internal rust
- 7 **BATH FEED** - blocked taps and surface stains
- 8 **SHOWER 1** - blocked shower head
- 9 **BASIN 1** - blocked taps and stains
- 10 **TOILET 1** - stained and difficult to clean
- 11 **SHOWER 2** - blocked shower head
- 12 **BASIN 2** - blocked taps and stains
- 13 **EXTERNAL TAP** - lime scale blockages
- 14 **IRRIGATION POINTS** - lime scale blockages

MERUS BOREHOLE TREATMENT

To treat the borehole well we allow Merus influenced water to return to the well. By doing so we will treat the internal conditions of the borehole, the pump, the casing and naturally the water.

Conditions to observe are the thickness of delivery pipe and the flow rate which will influence our choice of ring. Rings to be considered: (Based on water analysis)

- Industrial/Bio
- HCl
- HCl/Bio

More Merus rings might be necessary dependant on the conditions and design of the water/operational plant. This is subject to assessment.
